

### **Empower your donors**

Organizations that offer their donors a bill of rights do so for many reasons. A donor's bill of rights informs contributors by explaining concepts of —

**Transparency:** The right to know how contributions are used. **Accountability:** The right to responsible fund management and accurate reports.

**Privacy:** The right to keep personal information confidential. **Ethical standards:** The right to expect ethical practices and legal compliance.

**Impact measurement:** The right to understand contribution outcomes.

**Donor intent:** The right to ensure donations align with their specified purpose.

**Communication:** The right to timely updates.

These principles guide ethical philanthropy. For more information about how you can empower your donors with a bill of rights reach out to oi@eder.org.

#### Eder's 2023 DoD screening lists are available

Companies that earn a substantial portion of their revenue from the U.S. Department of Defense have long been screened out of the Eder investment portfolios in recognition of our organization's formation inside one of the historic peace churches. Each year Eder produces two DoD lists – publicly traded companies that receive the top 25 DoD contracts, and publicly traded

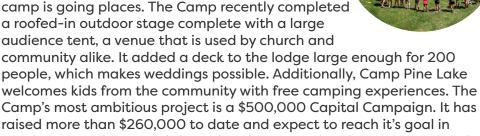

companies that receive 10 percent or more of their revenue from DoD contracts. This year's lists would have included pharmaceutical firms that received contracts to try to combat COVID-19. We believe these companies should not be screened out as they are working to advance treatment and cure this deadly disease. This year's two DoD lists can be found at the links below.

View the updated DoD list or scan this QR code:

#### A camp in motion

Lately, many church institutions seem to be in decline, but not so for Camp Pine Lake in Eldora, lowa. Under the visionary leadership of co-director Betsy Kuecker and the financial acumen of her father-in-law, treasurer Dan Kuecker, this Church of the Brethren

another year. The Camp is investing this money in Eder Organizational Investing with a plan to preserve the principle and use no more than 5% each year, thus assuring the Camp financial viability long into the future.

## Donor advised funds can help your organization

The National Philanthropic Trust estimates that \$45.7 billion, or 9% of total philanthropic giving, in 2022 was made as grants from Donor Advised Funds (DAFs) – a gain of 28.3% from 2021 levels. What is a DAF, and why are they increasingly popular? DAFs can be created from just about any asset – stocks, bonds, cash, and more. These liquidated assets are irrevocably given to Eder Deferred Gifts for reinvestment, with the aim of generating potentially larger gifts in the future. The donor qualifies for a tax benefit related to the original gift, and then can recommend distributions as they see fit in other years to qualified non-profits during their living years. This allows donors to maintain a sense of control while also appreciating the impact of their gifts while they are alive, unlike other planned giving arrangements. This helps explain why DAF grants have grown by 400% in the last decade. Donors and nonprofit leaders can learn more by reaching out to DG@eder.org.

# ORGANIZATIONAL INVESTING FUND PERFORMANCE REPORT

For the period ending June 30, 2023. EOII Funds net investment fees. Benchmarks gross investment fees.
