¹Following the recent transition to passively managed mutual funds, some investment options have duplicate names. Specifically:

Balance Index Fund

Bond Index Fund

US Mid Cap Equity Index Fund

US Small Cap Equity Index Fund

These fund options are similar in asset class and investment style and have comparable risk/reward characteristics and expense ratios. Selecting any fund with these duplicate names will result in highly similar investment outcomes, risk profiles, and performance. It is not necessary to diversify across multiple funds with the same name to achieve your strategy.
